

## Loss and Theft Guidance and Report Form

On March 1, 2018, the Office of Controlled Substances released a new guidance document – *Reporting of Loss or Theft of Controlled Substances and Precursors*.

The guidance document provides instructions on the scope of what should be reported to Health Canada when a loss or theft is detected, and includes a fillable PDF form to facilitate completion of the document. The goal is to make the process of submitting this information to Health Canada easier, while also increasing the quality of the information by standardizing the way information is entered into the form.

### Guidance Document
