

60th Anniversary – Pharmacy Residency Program Seeking Contact Information

The Pharmacy Department in the Saskatoon Integrated Service Area of the Saskatchewan Health Authority will be celebrating the 60th anniversary of its residency program on June 14, 2018. The Saskatoon pharmacy residency program is a well-established, fully accredited program that bears the distinction of being the oldest program in Canada, graduating its first resident in 1958. Over the years, many leaders in Pharmacy have graduated from this program.

The celebration will consist of an educational event followed by a social gathering. The current group of pharmacy residents will briefly share the results of their research projects. Past graduates will be solicited for stories, favorite memories, and/or photos.

How can you help?

1. We are searching for contact information (email and/or mailing address) for former residents. Please send information to dianne.roblin@saskhealthauthority.ca
2. If **YOU** completed a residency in Saskatoon, send **YOUR** contact information to Dianne.
3. If you have a friend or colleague who completed a residency in Saskatoon, please share this information.
4. Do you have residency photos, memories or stories you'd like to share? Please forward these to Dianne as well.

Thanks for your assistance.

Brenda Thiessen BSc, BSP, MSc, ACPR
Clinical Manager – Regional Pharmacy Services
