

## Health Care Provider Focus Group - HIV Patient-Provider Toolkit

### WE WANT TO HEAR FROM HIV CARE PROFESSIONALS IN REGINA

Do you professionally provide care for  
someone living with HIV?

We would like to talk to people who provide HIV care, to  
learn about the successes and challenges you  
experience in providing care.

We hope to develop resources for both patients and care providers  
to support relationship-building and improve health outcomes.

*If you chose to participate*, you will be asked to take part in a focus  
group to discuss your concerns for providing health to people living with  
HIV and ideas for improving the health services for this community. This  
discussion should only last about 1.5 hours. **Snacks will be provided.**

For more information about this study or to volunteer for this  
study, please contact Kelly Husack at [kellyhusack@gmail.com](mailto:kellyhusack@gmail.com)  
or call 306-536-4554.

My name is Kelly Husack and I am the research assistant in Regina for a project to develop an HIV patient-provider toolkit. **We are looking to recruit Health Care Providers that provide professional HIV care.** We want to learn about the successes and challenges you face in providing HIV care and develop resources based on the information we collect.

For more information or to volunteer for this study, please contact me to schedule a time that best suits you. Dates and times for focus groups are scheduled at the Regina General Hospital (pending enough health care providers can be recruited).

**Monday, February 12 - 12:00-1:30 PM**

**Thursday, February 15 - 7:00-8:30 PM**
